775 95 Horndal, SWEDEN

**Product Group:** iRAMP Vehicle Professional

**Country of Origin:** Sweden

**Management System Certification**

We hereby certify that our design, manufacturing, and distribution processes are governed by an integrated management system certified according to the following international standards:

- **SS-EN ISO 9001:2015** (Quality Management Systems)
- **SS-EN ISO 14001:2015** (Environmental Management Systems)

**Product Declaration**

This declaration confirms that the **iRAMP Vehicle Professional** product series is engineered for professional vehicle use, focusing on high safety standards, durability, and ergonomics.

As these products are **manually operated** and do not feature a powered drive system, they do not fall under the scope of the *Machinery Directive 2006/42/EC*. All units are designed and tested to ensure compliance with relevant safety requirements and professional load-bearing standards.

**Quality and Technical Specifications**

- **Swedish Origin:** The products are manufactured in Sweden, ensuring full control over the supply chain and material quality.
- **Load Capacity:** The maximum permissible load capacity (Working Load Limit) is **clearly marked on each individual unit** and must not be exceeded. All products are engineered with integrated safety margins.
- **Sustainability:** Production is conducted with minimized environmental impact, in strict accordance with our ISO 14001 objectives and Swedish environmental legislation.
